

Exhibition R+T 2024

Exhibition R+T 2024 - We are participating!

From 19th - 23rd February 2024 in Stuttgart.
Visit us in hall 8, booth 8C88.

We are looking forward to seeing you there!

Slide gate opener with frequency converter controller

EST-FU 1500 / EST-FU 3000

The new slide gate openers with high duty cycle and efficient hypoid bevel gearbox offer sufficient power in any situation and are designed for gates with an opening width of up to 30,000mm.

Barrier systems optional with folding skirts

Series INDUSTRIAL - series S

ELKA barriers of this series are designed for the protection of industrial entrances and can be operated with folding skirts and folding top and bottom skirts.

Perfect running performance, achieved by electronic speed control and optimized mechanics, protect motor and gear. An efficient drive concept and robust components ensure intensive operation with 100% duty cycle.

ELKA offers a selection of 3 barrier types of this series with different effective boom lengths and running times as well as suitable accessories for different purposes.
